PROFESSIONAL SUMMARY

Computer Engineering student at UTFPR with experience in IT support, digital fabrication and software development. Builds web applications with JavaScript, Node.js and Python and works with relational and NoSQL databases, Linux and Git. Taught programming logic and robotics to public-school students. Seeking a trainee program or a junior developer role to grow in software engineering.

PROFESSIONAL EXPERIENCE

Scholarship Student – Maker Space (Espaço Maker)
State University of Northern Paraná (UENP), Cornélio Procópio Campus · Mar 2026 – Present

- Built prototypes with 3D printing, laser cutting and engraving, and other digital fabrication tools.
- Converted digital models and files into working prototypes.
- Operated and provided technical support for lab equipment and software.
- Supported academic and institutional projects in programming, electronics and robotics.
- Guided users in the use of equipment and tools for hands-on projects.
- Took part in workshops and outreach activities on digital fabrication and project-based learning.

Education Volunteer – Grupo ELLP
Outreach project, UTFPR · Mar 2023 – Jul 2025

- Taught programming logic and robotics to public-school students.
- Organized and led workshops on digital literacy, robotics and app development.
- Adapted technical content for beginners.

IT Intern
State University of Northern Paraná (UENP), Cornélio Procópio · Feb 2024 – Aug 2024

- Provided hardware and software technical support to internal users.
- Diagnosed and resolved incidents on computers and peripherals.
- Configured basic networks and systems.
- Assisted with automation projects and internal systems.

EDUCATION

Bachelor's Degree in Computer Engineering – Federal University of Technology – Paraná (UTFPR), Cornélio Procópio Campus
2020 – Present · Expected graduation: 2027

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, C++, SQL
Web: HTML, CSS, Node.js, Express
Databases: PostgreSQL, MySQL, MongoDB
Operating systems: Linux, Windows, FreeBSD
Tools: Git, GitHub, Docker, Google Workspace, Microsoft Office, LibreOffice
Digital fabrication and prototyping: 3D printing, laser cutting and engraving, electronics and robotics
Infrastructure and support: basic networking, hardware maintenance, technical support, incident resolution

PROJECTS

- **Projeto-Front-End-EC47C** – Academic front-end project. HTML, CSS. github.com/gasakiri/Projeto-Front-End-EC47C
- **Projeto-Back-End-EC48B** – Academic back-end project. JavaScript, Node.js. github.com/gasakiri/Projeto-Back-End-EC48B
- **FlowBit-2025.1** – Academic team project. Python, Git/GitHub. github.com/gasakiri/FlowBit-2025.1
- **Certificadora-1** – Competency certification course project. JavaScript. github.com/gasakiri/Certificadora-1

CERTIFICATIONS

- **MATLAB Certified** – MathWorks (2025)
- **CS50P: Introduction to Programming with Python** – Harvard University (CS50)

LANGUAGES

- **Portuguese:** native
- **English:** advanced
